DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 5, 6 and -15, drawn to a vector and a cell carrying the vector, classified in class 435, subclass 320.1.
 - II. Claim 17, drawn to a kit comprising a vector a ligand, classified in class 514, subclass 1.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions of vector and cell of Group I and the vector and ligand of Group II are chemically, biologically, and functionally distinct from each other, and thus one does not render the other obvious. The vector is in common in each Group, but the cell of Group I and the ligand of Group II are chemically, biologically, and functionally distinct from each other. The cell of Group I is not required to produce the ligand of Group II, nor is the ligand of Group II required to produce the cell of Group I. The cell carries the vector, but the ligand acts on the product of expression of the vector, and does not act on the cell or the vector. Therefore, the inventions of the two groups are capable of supporting separate patents.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 1636

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

6. Certain papers related to this application are *welcomed* to be submitted to Art Unit 1636 by facsimile transmission. The FAX numbers are (703) 308-4242 and 305-3014. The faxing of such papers must conform with the notices published in the Official Gazette, 1156 OG 61 (November 16, 1993) and 1157 OG 94 (December 28, 1993) (see 37 CFR 1.6(d)). NOTE: If applicant *does* submit a paper by FAX, the original copy should be retained by the applicant or applicant's representative, and the FAX receipt from your FAX machine is proof of delivery. NO DUPLICATE COPIES SHOULD BE SUBMITTED, so as to avoid the processing of duplicate papers in the Office.
